

Belmont Primary School

School Health and Safety Policy Statement

The Senior Leadership Team of this school is committed to ensuring the highest standards of care for their staff, pupils, visitors and others who work on behalf of the school.

We believe that an excellent school is by definition a safe school. Since we are committed to excellence, it follows that minimising the risks posed by our activities is inseparable from all our other objectives.

We plan to achieve our goals by developing, implementing and maintaining our school's health and safety management system.

Your senior leadership team is committed to:

- The continual improvement of our health and safety performance
- Complying with all our legal and other regulatory requirements
- Contributing to the success of the Acorn Care and Education Strategic Health and Safety Management System.

We will achieve our key objectives through:

- **Hazard identification, risk assessment and risk control** – ensuring that our current and future health and safety risks that impact on our school are managed effectively
- **Involvement of people** – ensuring the involvement of all staff in the success of the school is achieved, and that people's knowledge and skills are developed to meet their own needs and the needs of Acorn Care and Education
- **Effective school leadership** – ensuring that all key activities are identified and managed
- **Supplier relationships** – ensuring that we manage the selection and performance of all our service providers.

This policy is communicated to all persons working on behalf of this school and is subject to regular review. A copy of our health and safety policy manual is available to interested parties on request.
